PROJECT

Issue Management System | [Link](#)

Technologies: Spring MVC, JPA, MySQL, CSS, HTML, JavaScript, Bootstrap.

- A Java Enterprise Web Application developed to help citizens raise and resolve complaints.
- Provides a platform for users to report issues in their areas, cities, or homes.
- Directs complaints to the respective departments for resolution.
- Sends regular email updates to users about their complaint status.
- Simplifies issue resolution by enabling easy complaint registration and sending resolved issue updates through email.

CERTIFICATIONS

- Java Full Stack Development at X-workz, Bengaluru.
- Certified in the Basics of JavaScript and SQL by Cuvette
